

The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. Indiana's Telephone Privacy law has improved my time at home. Indiana's law has been extremely effective; I used to receive anywhere from 10 to 15 calls per week, now I only receive maybe one every few weeks. I am disillusioned by the blatant abuse desperate and useless companies take to assault my home with junk phone calls and mailers and I will continue to support any measure (especially Indiana's Telephone Privacy Law) that will minimize what is more than a minor inconvenience but a serious infringement of my personal time.
